Plate Side Adhesive Level: L = Low M = Medium

Cylinder Side Adhesive Level: L = Low H = High

Availability: S = Standard A = Available

See Page 2 for Order Policies

Order Policies

Tolerances: Length tolerance of rolls shipped is +/- 1% of ticketed length.

S = Standard item: Shipment within 2 weeks of order is subject to availability and lead-time.

A = Available item: Shipment within 5 weeks of order is subject to availability and lead-time. Minimum order is nearest roll quantity over 3,000 square feet (279 m²).

Special Requests: Custom widths, custom adhesives or other special requirements will be handled on a case-by-case basis through the Request for Quotation (RFQ) process. Call Customer Service to submit your request at 866-453-1002 or 860-928-3622 for International calls.

Special Note: There shall be no minimum order requirement for "Available" products shipped from existing inventory.

Slitting Policy

Rogers will slit R/bak SA 3000 tapes from 54-inch (137 cm) wide master rolls only.

Any combination of slit widths may be ordered from a single 54-inch (137 cm) wide master roll. Slitting tolerance is ± 0.125 in (3.2 mm).

The customer will be charged for the entire 54-inch (137 cm) width. Any off cut that is generated will be shipped with the order.

The slit rolls will be shipped in one 57-inch (145 cm) box. Special boxes will not be available for special size rolls. The box will have a label with the roll sizes and quantities of each slit roll.

The typical lead-time is two weeks from receipt of order for SA 3000 products.

Maximum order size for this lead-time is five 54-inch (137 cm) rolls. If larger quantities of custom width SA 3000 products are needed, please refer to the R/bak Product Availability and Order Policy document for additional information, or contact your R/bak Account Manager.

Normal terms and conditions apply, except that Rogers will waive the drop ship charges in the United States for five rolls or less, if requested.
