2. HAZARDS IDENTIFICATION

EFFECTS OF OVEREXPOSURE: None are expected with normal handling. Materials listed in Section 2 are encapsulated or compounded making release unlikely.

INHALATION: Machined dust may cause respiratory irritation. (Machines mean using a saw to cut the article, which generates visible particles.)

EYE CONTACT: Dust caused by mechanical grinding or cutting may cause mechanical irritation.

SKIN CONTACT: None anticipated.

INGESTION: Not a likely route of exposure.

CHRONIC: Carbon black has been classified as a Group 2B carcinogen ('Possibly Carcinogenic to Humans').

3. COMPOSITION/INFORMATION ON INGREDIENTS

This material is produced as an "article" as defined in 20 CFR 1910.1200 and is therefore exempt from the Hazard Communication Standard. Since this material does not release chemicals and will not result in exposure to a hazardous chemical under normal conditions of use, no Material Data Sheet is required. This form is provided as a convenience to our customers.
