Rogers Corporation Cookie Policy

Last revision on September 18th, 2019

Rogers Corporation and all its business segments, divisions and subsidiaries ("**Rogers**", "**we**" or "**our**"), use cookies to record your internet settings and browsing preferences, which allows us to optimize the design of our website and improve your online experience. We may also use third parties cookies for third party advertising, social plugins or analyzing traffic on our website.

What are cookies?

A cookie is a small file that can be placed on your device that allows us to recognize you and remember your preferences (e.g. language or location) and your browsing behavior (e.g. the webpages you visit). It is sent to your browser and stored on your computer's hard drive, tablet or mobile device. When you visit our website, we may collect information from you automatically through cookies or similar technology.

In general, cookies ease and accelerate the interaction between you and the website or (mobile) application that you visit. For example, they help you navigate between the different parts of a website. If we can identify you with a cookie, you do not always have to enter the same data, for example, your login information.

In addition, we use cookies to make the content of our website and (mobile) applications more interesting for you. We do this by adapting that content to your personal preference and needs.

We also use cookies to identify your online behavior. How did you end up on our website? How long did you use it? With statistical results, we can improve our website where necessary and respond to our users' preferences and needs. Finally, we can use this data to fulfill specific reporting obligations.

What types of cookies are there?

This website uses two types of cookies:

1. First party cookies. For our website, the first party cookies are controlled and maintained by Rogers Corporation. No other parties have access to these cookies.
2. Third party cookies. These cookies are implemented by organizations outside Rogers Corporation. We do not have access to the data in these cookies, but we use these cookies to improve the overall website experience.

How do we use cookies?

This website uses cookies for two purposes:

1. Certain cookies are necessary for our website to function. These are strictly necessary cookies and are required to enable website access, support navigation or provide relevant content. These cookies direct you to the correct country, and support security and ecommerce. Strictly necessary cookies also enforce your privacy preferences. Without these strictly necessary cookies, most of our website would not function.
2. Analytics cookies are used to track website usage. This data enables us to improve our website usability, performance and website administration. In our analytics cookies, we do not store any personal identifying information.

Cookies help us help you. Through the use of cookies, we learn what is important to our visitors and we develop and enhance website content and functionality to support your experience. Much of our website can be accessed if cookies are disabled, however certain website functions may not work. And, we believe your current and future visits will be enhanced if cookies are enabled.

How do you block cookies?

By using our website without blocking cookies, you agree to our use of cookies. You can block all cookies at any time by adjusting the settings in your browser but, if you choose to block all cookies, then you may not be able to access all of our website or use all functionality.

Most browsers are pre-set to automatically accept cookies. The "Help" / "Options" / "Settings" features on most browsers will tell you how to delete existing cookies or how to block cookies altogether. If you use several devices or browsers, you will have to block cookies on each of them.

Users may opt out or manage cookie settings by visit the below links for additional details to adjust their browser:
